After 11 o'clock it was evident that buying was more general, and, assisted by a large batch of foreign orders, as well as the covering of the shorts, who were clearly becoming alarmed at the strength which the market had developed after the opening, prices took nather upward turn. It appears that the Standard Oil people have secured control of the property, and in the new Board of Directors appear the names of W. H. Tilford, both of whom are connected with the Standard Oil Company, the former as its Treasurer, and C. P. Huston, in the place of Heman Clark, H. I. Nicholas and Thomas W. Evans, who have resigned. C. C. Baldwin has also resigned his position as Chairman of he Finance Committee, and D. J. Mackey, formerly President of the Company, was selected in his place. Mr. Mackey was also chosen Chairman of the Board of Directors.

No definite statement has yet been obtained from the firm of H. I. Nicholas, which failed yesterday, nor will Lawyer William Nelson Cromwell, their assignee, give any further particulars with regard to assets and liabilities.

It is understood, however, that all the creditors of the firm, with the exception of one for whom some of the Evansville stock was closed out yesterday, afternoon under the rule, have informally agreed not to bress matters or sacrifice the collateral held by them for the present.
